Bureau of the Census,1960 Post-Colonial Immigrants and Identity Formations in the Netherlands Ulbe Bosma,2012 In this book Ulbe Bosma explores the experience of immigrants in the Netherlands over sixty years and three generations Looking at migrants from all countries Bosma teases out how their ethnic identities are informed by Dutch culture and how these immigrant identities evolve over time Fascinating comprehensive and historically grounded this essential volume reveals how the colonial past continues to shape multicultural Dutch society It is an important counterpart to work on France Britain and Portugal Andrea Smith Lafayette College **Framing Immigrant Integration** Peter Scholten,2011 Debates on immigrant integration often center on national models of integration a concept that reflects the desire of both researchers and policy makers to find common ground This book challenges the idea that there has ever been a coherent or consistent Dutch model of integration and asserts that though Dutch society has long been seen as exemplary for its multiculturalism and argues that the incorporation of migrants remains one of the country s most pressing social and political concerns In addition to an analysis of how immigration is framed and reframed through diverse dialogues the author provides a highly dynamic overview of integration policy and its evolution alongside migration research □□□□□□□□ , *Injury Experience in Coal Mining* ,1966 *Bulletin* ,1923 Albania on the Move Julie Vullnetari,2012 This academic and personal journey into Albania s post communist society examines the links between internal and international migration in one of Europe s poorest

countries The author follows rural migrants to urban destination both within Albania and in neighboring Greece Their lives and experiences are captured in 150 interviews alongside group discussions and the ethnographic observations This rich empirical material is analysed with reference to an extensive body of literature The author s own experience as migrant and reflections as a researcher studying her own communities of origin add valuable insights The result is a demonstration of the complexity of the links between internal and international migration especially from a development perspective back cover

Foggy Social Structures Michael Bommes, Giuseppe Sciortino, 2011 European countries are currently involved in several irregular migration systems resulting in undocumented populations estimated at several millions They manage to live and work for years without a certified identity a phenomenon that challenges existing notions of political statehood and societal membership Drawing on empirical studies carried out in a variety of settings the authors of this illuminating study analyse the ways in which such irregular migration systems developed over time interacting with changes in European labour markets welfare regimes and immigration policies
