Transportation Research Forum,1982 Indian Muslim(s) after Liberalization Maidul Islam,2018-12-13 Close to the turn of
the century and almost 45 years after Independence India opened its doors to free market liberalization Although meant as
the promise to a better economic tomorrow three decades later many feel betrayed by the economic changes ushered in by
this new financial era Here is a book that probes whether India s economic reforms have aided the development of Indian
Muslims who have historically been denied the fruits of economic development Maidul Islam points out that in current
political discourse the Muslim question in India is not articulated in terms of demands for equity Instead the political
leadership camouflages real issues of backwardness prejudice and social exclusion with the rhetoric of identity and security
Historically informed empirically grounded and with robust analytical rigour the book tries to explore connections between
multiple forms of Muslim marginalization the socio economic realities facing the community and the formation of modern
Muslim identity in the country At a time when post liberalization economic policies have created economic inequality and
joblessness for significant sections of the population including Muslims the book proposes working towards a radical
